Illy Café

French Press Coffee Service

The story begins in Trieste, Italy, the Adriatic port town where coffee first entered Europe, and where in 1933, company founder Francesco Illy developed the modern espresso machine. The story is still being written today by President Andrea Illy, representing a third generation of Illy family leadership.

Palais des Thés

Loose Leaf Tea Selection from Paris

The story of Palais des Thés began in Paris in 1986 when a group of 40 friends, led by François-Xavier Delmas, opened a shop selling tea. They wanted to be sure they were selling good quality products, and decided to source their teas directly from the countries of origin. Passionate about their cause, the friends made it their mission to introduce French people to the best teas. This philosophy still lies behind everything the company does.
